

## Learn How Robotics Work!

Campers work in small groups to design, build, and program LEGO® robots during this week long summer day camp.

## Learn How Robotics Help People!

Every day, time is set aside to learn about engineering and robotics. Find out how engineers work to **solve problems** and **help people** in day-to-day living.

Engineers work in all kinds of fields, including health care, manufacturing, transportation, product design—there are even Ketchup Engineers!

Over 1,000 children have attended our camp over the past 7 years!

A group of happy campers

# ROBOTICS CAMP

## Vacation Program for 8-13 year old girls and boys

# 2010

*Learn about  
Robotics and  
Engineering  
and how they  
help people  
solve problems.*

Vacation Program Location:

University of Maine Cooperative  
Extension Building  
307 Maine Ave, Bangor

April 20-23, 2010 (4 days)  
8:00 am – 4:00 pm

*Check our website for all our Summer  
Camp Offerings!*

# GREAT FUN!

We provide a safe, nurturing, and mentored environment where kids can learn at their own pace.

The Bangor Police bomb-squad robot visits camp!

**Payment and registration now accepted ONLINE!**

For much more information visit:

**[www.mainerobotics.org/camps.html](http://www.mainerobotics.org/camps.html)**

**All camps are limited to 16 campers. REGISTRATION IS ON A FIRST COME, FIRST SERVED BASIS.**

**Price:** \$210 for each camper for the 4-day program. \$190 for 4H members.

Includes light snacks (Campers *must* bring a brown bag lunch)

**Hours:** 8:00 am to 4:00 pm

**Only one level offered**

Open to boys and girls ages 8-13;  
No previous experience needed

Experienced children will be given more advanced tasks to work on.

A medical information form and an emergency contact form is required prior to the start of camp. This will be provided to each camper prior to the start of the session.

You can also visit our Web site or call for copies of these forms.
